TRUMAN CONTINUES TO MAP PLANS, DESPITE REPUBLICAN OPPOSITION

WASHINGTON, Dec. 11.—(AP)

WASHINGTON, Dec. 11.—(P)—
The Republican program for voluntary curbs on inflation was approved 14 to 9 today by the house
banking committee.

The committee rejected, 15 to 9,
an amendment which would have
provided authority for compulsory allocations and priorities as
proposed to a senate committee
yesterday by Secretary of Commerce Harriman.

WASHINGTON, Dec. 11—(R)—
Republican leaders today brushed aside President Truman's new call for his 10-point anti-inflation program and pushed their own bill toward approval by the house banking committee by nightfall.

Chairman Wolcott (R-Mich) flatly predicted approval by his committee.

AMENDMENT ADOPTED WHICH MAY UP COST OF FOOD \$50,000,000

WASHINGTON, Dec. 11.—(P)— The house passed the \$590,000,000 emergency foreign aid bill late today by a voice vote.

Despite six days of debate and more than 50 attempts to amend it, the bill was passed without change in the amount of money

recommended by the house for-eign affairs committee. Even after a compromise between the senate and house ver-sions is reached, a separate bill will be needed to appropriate the actual cash.

WASHINGTON, Dec. 11.—(AP)—The house got into a rousing political row over the emergency foreign aid bill today shortly after adopting an amendment which may raise the cost of the program to the United States by \$50,000,000.

The uproar began when Republican Leader Halleck (Ind.), speaking in support of the \$590,000,000 measure, remarked that the Democratic administration "has terribly minmanaged the foreign affairs of this country."

Hallack added that the money is necessary only because of what he called the administration's mismanagement.

AVOIDING DEPRESSION

Harold E. Stassen of Minnesota, speaking in Chicago recently as part of his campaign for the Republican Presidential nomination, stated that the United States can continue in full production for an indefinite period without the setback of a depression.

His six-point program for the avoidance of collapse embodies the following projects:

1. Reduce taxes.

2. Restore consumer credit controls.

3. Have a public works program which can be set in motion when employment dips.

4. Mobile buyer resistance to high prices.

5. Maintain annual income for the family-sized farm.

6. Let the government take vivorous action against may come when they have in the avoidance and province of the controls and the controls and province of the property of a property of a property of the support of a program which can be set in motion when employment dips.

Dr. Dawson Leads Court Fight Over **Religion Classes**

By TEX EASLEY

WASHINGTON, Dec. 10—(R)—
A Texas clergyman is a leader in the move against teaching of religious courses in public school systems, an issue the Supreme Court has been asked to settle.

He is Dr. J. M. Dawson, for 31 years a pastor in Waco, who now serves as Executive Secretary of the joint conference committee on public relations of the Baptists of the United States.

Now stationed in Washington, he helped prepare a brief for submission Monday to the Supreme Court in a case involving the public school system of Champaign, III.

Woman's Society of Christian' Service of the Black Hills Methodist church met Monday afternoon in the home of Mrs. M. M. Pike, for the special Christmas meeting.

The opening song, "Silent Night," was sung by the group, followed with a prayer by Mrs. Hugh Parints.

day. Here's how you do it: Cut 16 marshmallows in quarters with wet scissors. Add 1-2 cup of hot coffee. Cook until melted in double boiler. Cool. When it begins to thicken, fold in 1 cup of heavy ble boller. Cool. When it begins to thicken, fold in 1 cup of heavy oream, beaten stiff, and add 1-2 teaspoon vanila. Should serve six. If you can't afford a new dress, fix up some old blouses and wear a skirt-blouse rig. One kid did just that. She cut the neckline of an old white blouse into an off-shoulder style, pasted sequins around it (it is surprising how a few glittering things can rejuvenate an old gown), removed the cuffs of the long-sleeved blouse, made the sleeves three-quarter length with a tight cuff. Try it. Let out the hem of an old skirt and you'll be all set with a "new look."

State Board Will Hear More About Deaf School Row

AUSTIN, Dec. 11.—(#)—With new testimony charging that a "master-mind" is behind agitation at the State School for the Deaf, the state board of control today planned to call more witnesses at an unspecified date.

Supt. Roger M. Powell, whose removal from the school has been demanded by students in g series of hearings following their strike two weeks ago, appeared before the board again yesterday

"I believe I have refuted all charges brought against me and I believe it's only fair that members of the (student) council be questioned as to why they have

questioned as to why they have decided not to be my friends any

"What is behind the whole thing? What motive? What mastermind has caused them to turn suddenly against me? Why don't they like me any more? Who's telling them—?"

Ten students had testified ear-lier that Powell had struck or slapped them. Powell last week denied all the alleged slappings but admitted that "spankings" had been administered in some cases to preserve discipline at the school.

The New York League Occupational Therapy Committee, which celebrates its 25th anniversary this year, gleans much of the materials used in its work from its own scrap bags. More material is donated by manufacturers.

The committee is so much interested in improving the designs used in occupational therapy articles that it has wrapped up its findings in a book of designs and a traveling show illustrating them which will soon start around the United States on loan exhibition.

Finally, the New York League committee will assemble the bright birdcages and doll houses, wallets, leashes, belts and other things made by the occupational therapy patients for one of two annual sales held in the League clubhouse, 221 East 71st St. The proceeds will be ploughed back into the work, which has brightened thousands of Christmas trees with gifts and thousands of lives with happier hours and better health. gifts and thousands of lives with happier hours and better health.

Good Sleep Vital To Health, State Official Advises

AUSTIN, Dec. 11.—(Spi)—Sleep is a necessity of life and health, according to Dr. Geo. W. Cox, state health officer, and habitual loss of sleep will tend to retard the body's recovery from the fatigue of the day's activities.

tigue of the day's activities.

"We may be able to go without sleep for a night or two, but too little sleep for a prolonged length of time will undermine the health of a rugged person and sleep that is lost cannot be made up," Dr. Cox said. "When good health can be protected to such a large extent merely by sleeping, and thus allowing overtaxed bodies and minds to secure the proper rest, it is hard to understand why so many persons are heedless of this important health measure."

Some individuals require more

many persons are heedless of this important health measure."
Some individuals require more sleep than others. How well we sleep is as important as how long we sleep. A "good night's rest" means a sufficient number of hours spent in sleep to enable the individual to feel well, do efficient work, and to keep in a cheerful humor the next day.

"A comfortable bed, and fresh air in our sleeping quarters," Dr. Cox said, "will help us to sleep soundly at night, especially after some outdoor exercise such as a brisk walk. Don't mull over your problems and ideas after you have gone to bed. Make your plans early in the evening for a good night's rest by slowing down from the physical and mental work of your daily life, and dismissing your Problems from your mind. When you arise each morning, rested and with a feeling of general well-being, you will be amply repaid for your thought in planning a 'good night's sleep."

Ben Ryder is back! After twenty years in Capital City, Ben has retired and come to enjoy life in the family house on Maple Street.

First thing Ben does is write us complaining how Our Town has changed. "Why, there's no mud in the streets to sink up to your ankles in!" he says. "No pistol feuding in the town square! No moonshine liquor or Saturday light brawls! Nothing to do but ettle for a temperate glass of beer n a law-abiding taverni"

"Turrible, turrible, turrible," Bon

says, "how a town can get run dewn in twenty years!" And then Ben takes his tongue out of his cheek and tells us how proud he is of the orderly, law-abiding atmosphere he finds here.

And from where I sit. You can point to that growing preference for a moderate, wholesome glass of beer as one reason folks in Our Town are so temperate, and neighborly and well-behaved.

The Hatch act, to which Lee referred, restricts po-litical activity by federal employes. Leo's report, dated Dec. 3, identified Denis W. Delaney as the Collector of Internal Revenue at

Boston.

Former FBI Agent
Lee is a former FBI agent. In
his report, he asserted that reductions made early this year by congress in the treasury department's operating funds appear "to have been deliberately applied to the fleid staff of the internal revenue service, predominantly in the en-forcement arm."

The investigation started as result of reports to the committee that the treasury department had "improperly" distributed the bud-

get cuts.
During the course of the routine check in the Boston office. Lee reported, "there came to light a sum of money in a file cabinet which appeared to be undeposited receipts from the March of Dimes collection of last winter. Information likewise was incidentally re-vealed indicating possible viola-tions or creumventions of the Hatch Act with specific regard to the political-activity clauses of that act."

Soil Conservation MISS AMALIA REESE Program Outlined | FUNERAL SERVICES

Wholehearted endorsement of a vast, long-range flood control and soil conservation program for Navarro County was given Monday by the Commissioners' Court.

Presented by District Soil Conservationist Jack Everheart, the plan embraces the Trinity river watershed, which was the first flood control project in the United States to be approved by Congress. The program for 1948, as outlined briefly by Everheart, envolves two sub-watersheds in Navarro County—the Eureka and West Briar. The farmer, state, county and federal governments each will support the costs.

Using maps and blue prints of projects, Everheart pointed out numerous eroded areas in the county and declared:

"We know that something must be done in the future. Engineers"
